THE THREE LITTLE PIGS

REMEMBERING - What are the facts

UNDERSTANDING - Show that you understand the story

2. The wolf destroyed the first two pigs' houses by blowing them over with his breath. He must have had very strong lungs and the houses were not very well built.

3. Map of the settings

APPLYING - Using what you know from the story

4. Poster warning other pigs about the wolves in this forest

WARNING

The wolves in this forest cannot be trusted !!

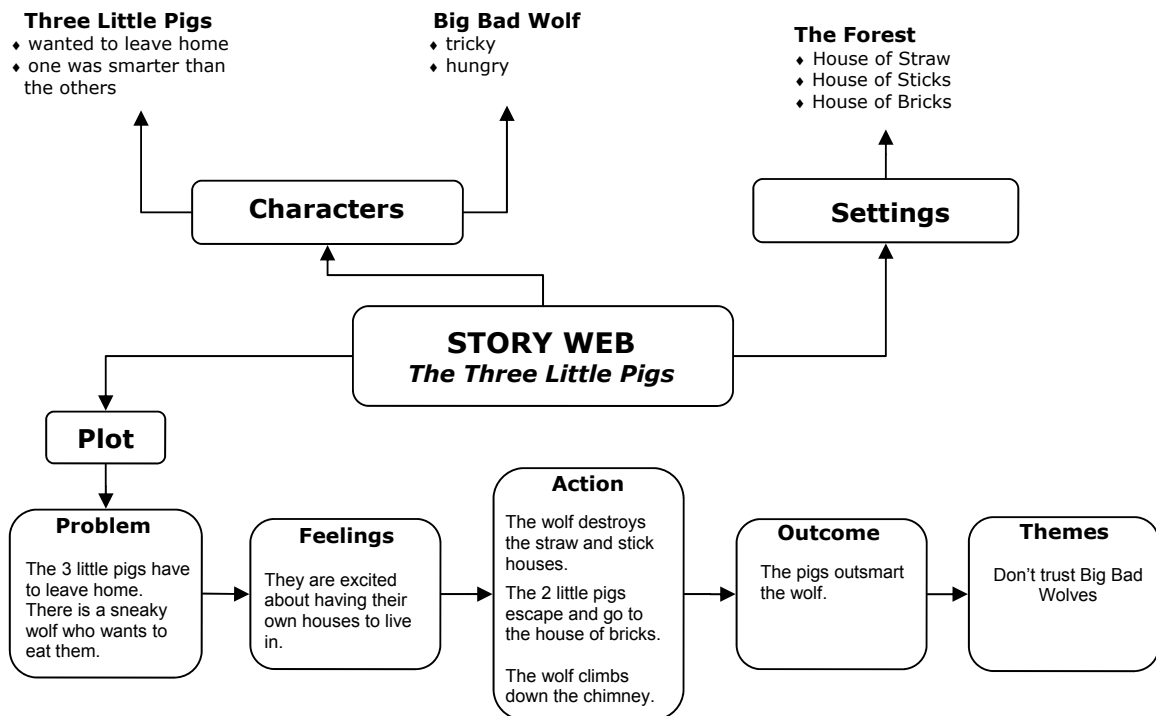

They have awesome lungs and can blow down anything you make in straw and stick.

BUILD IN BRICK

SIGNED ... The 3 Little Pigs

ANALYSING - Breaking down the story to show how it works

7. Story Web for The Three Little Pigs

CREATING - Coming up with new ideas

8. A gadget for the pigs so that the Big Bad Wolf cannot find them

**EVALUATING - Sorting out the good from the bad**

9. Building a house with bricks

Yellow Hat Thinking (Good)	Black Hat Thinking (Bad)
1 Wolves can't blow down brick houses.	1. It takes a lot of skill to stack the bricks properly.
2. Brick houses are much warmer than houses made of hay and straw.	2. You have to buy or make bricks - you can find sticks lying around in the forest.
3. The rain doesn't get in.	3. Brick houses are not very good in earthquakes.

10. My Rating

I would give this story 7 out of 10. It was good that the Big Bad Wolf got what was coming to him and the 3 Little Pigs can now live happily ever after, but I didn't think it was very nice the way they boiled him in the pot of boiling water. That was a bit gruesome.
